

# Building Blocks: c3HUU's Building Project Bulletin

Issue 16: September-October 2020 On-line at <http://www.c3huu.org/osof-1.html>

## Moving Forward with Strategy B

In a letter dated September 21, the Board endorsed the Gap Strategy Task Force's proposed "Strategy B" for closing the Building Project's funding gap. This strategy was part of an overall plan called "Minding the Gap" first distributed to the congregation in December 2018.

Strategy B applies to the time period following June 30, 2021, when the original 3-year pledges are due to have been paid, leaving a "Gap" compared to the balance of the construction loan. Strategy B addresses how to minimize the adverse effects of a long-term loan on the church's operating budget, by appealing for fourth-year pledges from those able to do so. The aspiration is to pay the loan by June 30, 2022, if possible.

With due consideration for the effect of current national and individual uncertainties and trauma, it is time to gently move forward with an appeal that offers maximum personal flexibility to respond. For more info, click on [the Building Project home page](#).

### Gap Timeline Update – Based on actual data and projections as of July 31, 2020
