HUGE NEWS – BUILDING CONSTRUCTION IS UNDER WAY!

With the town's building permit firmly in hand, our building construction phase officially started on Friday, June 19 - HURRAY! Heavy equipment arrived Monday, June 22. On Tuesday, June 23, groundbreaking (in consideration of pandemic constraints) was heralded by a photo of the excavator with Reverend Thom at the controls. NOTE: For safety reasons, please do not attempt to visit the work site in person, but do CLICK HERE for a weekly-updated virtual tour via photos.

IMPORTANT SAFETY NOTICE FOR VISITING THE CHURCH

Now that construction work has begun, please observe the following parking and entry rules: Do not park in the small lot near the office. Instead, park in the pine lot at the top of the driveway, or in the back lot behind the Sanctuary, or (on weekends only) in the big lot. Do not enter the fenced and signed construction site in back (access to Memorial Rock will be limited to a back route). In case you need assistance for access, please contact Rachel in advance during office hours.
