Testimonial

I'm excited about our new space! I'm excited to see the new multi-purpose room holding our wonderful RE program on Sunday mornings and other gatherings like speakers and movies throughout the week. I'm excited that our middle and high school youth groups will have a comfortable space big enough to accommodate them. I'm excited that meeting organizers will actually have a prayer of finding meeting space on a Tuesday evening! I'm excited that we'll have space for community groups. And all that space will be accessible and welcoming!

Excitement is important, but it's not enough. I've also increased my capital pledge by adding another year of pledging from July 2021 to June 2022. The space is a given now - it will be finished in months. Paying it off so that we don't burden the church's annual operating budget with a loan payment is not a given. But we can do it! I believe that our generosity can make paying off this building project a reality by June of 2022.

When the pandemic is over and we are finally able to gather in person again, our new space will be there waiting for us, welcoming us. If you are financially able to do so, please consider increasing your pledge to the building project (or pledging for the first time). Every contribution, no matter how small, will help us reach our goal of not burdening the operating budget in the years to come.

Jenny Warnasch
Co-Chair, Gap Strategy Task Force
